MSP

MANUFACTURER INTO STOCK PRICING (MSP)

LET TRADE SERVICE DO THE WORK FOR YOU!

Would you like to avoid the pain of loading your supplier's net pricing files? Let Trade Service do it for you and send it to you as part of your weekly update.

ANALYZE, MAP, AND MATCH

Getting electronic net price files from your suppliers is very helpful, but having to analyze, map, and match these files to your product file so you can load the net prices can be very time consuming and difficult. As you know, manufacturers supply their net price files in varying formats, so every time one shows up, you have to go through a lot of work to get them processed.

USE THE MSP FEATURE OF eDATAFLEX®

Trade Service wants to remind you of the great solution contained within your eDataFlex service – the Manufacturer into Stock Pricing feature. All you have to do is email the net price files you receive from your manufacturer to your Trade Service support representative. We'll take care of the sorting, mapping and matching, and put it in your standard weekly update. You'll get the net prices loaded into your system simply by processing your weekly update as you always do, hassle-free.

NO ADDITIONAL COST!

Try it just once, and you'll see how much time you can save.

Top Benefits

- **Analyze, Map, and Match**
- **Avoid** the pain of loading your supplier's net pricing files
- **A feature** of your eDataFlex service
- **No additional cost** to take advantage of this valuable service
