

TRA-SER[®] SX

Up-to-date Plumbing/Mechanical Product & Pricing Information Available Anytime on the Internet

Bidding and estimating can be a daunting task, having to find current prices for hundreds, if not thousands of items. **TRA-SER SX** is an online database of 2.1 million plumbing/mechanical items from over 720 manufacturers with up-to-date pricing and accurate product information. And you can import the data into most major estimating systems. **TRA-SER SX** is the missing link that will streamline your bidding and estimating process, saving you time, increasing your accuracy, and therefore helping you realize more profit from winning more bids.

Search the database by commodity, manufacturer, description, or a host of other options

Supplier Xchange™ gets you instant pricing from your preferred suppliers
