

Supplier Xchange Basic

FOR DISTRIBUTORS

INSTANT PRICING DIRECT TO YOUR CUSTOMERS

Supplier Xchange™ Basic dramatically speeds the price request process by connecting the distributor to their customers in real time. It provides a more efficient way of responding to the high volume of price and bid requests.

RESPOND TO RFQ'S IN SECONDS

The process is simple – a contractor electronically submits a list of items to you from their estimating program or from TRASER®. If you approve them, their list is instantly matched against a pricing file you will have submitted for that customer. Within seconds

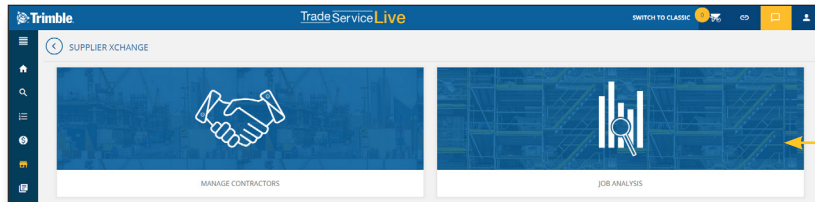

the list is returned to the contractor with their specific pricing, ready to apply within the bid or estimating program.

Because every RFQ will be electronically responded to in mere seconds, it saves both you and the contractor time, and reduces the likelihood that a slow response costs you a sale down the road. Supplier Xchange Basic helps you have more time to devote to solidifying your relationship with customers.

You also have access to a set of administration tools that allow you visibility into your customers' quoting activity so you can develop strategies to earn even more of their business.

Top Benefits

- ▶ **Respond electronically to RFQ's** with contractor-specific pricing in seconds
- ▶ You have **ultimate authority to decide** which contractors are allowed access to your pricing
- ▶ Customers can ask for **alternates**, so even if you're out of stock on one item, a replacement can be provided automatically
- ▶ Fuel your business strategy by keeping track of **what customers are asking for** most often
- ▶ Detailed **emails are automatically sent** to you each time a customer request is processed so you can follow up personally if you desire

COPPER WIRE	THW-3-BLK-75TW-CU-500R	Matched by UPC
COPPER WIRE	MC-STL-122-SOL-W/GRN-	Matched by UPC

Cross Reference

With the Supplier Xchange Basic cross-reference tool, you are able to upload cross-references for manufacturer items that you do not carry on your line card. This way your contractor customer will receive the best pricing coverage possible.

Supplier Xchange Basic

FOR DISTRIBUTORS

FAQ's

WHAT IS SUPPLIER XCHANGE BASIC?

- ▶ It's a program developed by Trimble Trade Service that connects Trimble Trade Service contractor customers with their preferred distributors to obtain their specific prices at bid time.

HOW DO CONTRACTORS BENEFIT FROM SUPPLIER XCHANGE BASIC?

- ▶ Supplier Xchange Basic helps contractors win more bids by increasing the speed of the price request process for the contractor by connecting them to their distributor partner in real time.

WHAT IS THE DISTRIBUTOR'S COST TO PARTICIPATE?

- ▶ There is no charge or fee for the distributor to participate in Supplier Xchange Basic

DOES A DISTRIBUTOR HAVE TO SIGN ANY TYPE OF CONTRACT?

- ▶ No, participation is voluntary.

HOW SECURE IS THE DISTRIBUTOR'S PRICING DATA?

- ▶ Distributor "bid" data is secure behind two firewalls on Trimble Trade Service isolated servers.

IS THE DISTRIBUTOR REQUIRED TO LINK WITH ANY CONTRACTOR THAT REQUESTS ONE?

No, all distributor-to-contractor connections made must be first authorized by the distributor and are controlled directly by the distributor.

WHAT CONTROL OVER PRICING INFORMATION DOES THE DISTRIBUTOR HAVE?

- ▶ The distributor controls both the contractor approval/rejection process and the file uploading and mapping processes for the pricing files.

ARE THE APPROVAL/REJECTION PROCESSES AND FILE UPLOADING AND MAPPING PROCESSES DIFFICULT?

- ▶ No, both are quite easy. Trimble Trade Service provides access to our Distributor portal which makes interaction with Supplier Xchange Basic convenient and easy.

WHAT DOES THE CONTRACTOR NEED TO DO ON THEIR END TO IMPLEMENT SERVICE?

- ▶ In order to start utilizing Supplier Xchange Basic, the contractor needs to request authorization from their chosen distributor. Once the distributor approves the contractor's request and sets up a price file for them, the contractor can begin utilizing the Supplier Xchange Basic service.

HOW MANY DISTRIBUTOR'S ARE PARTICIPANTS?

- ▶ There are currently over 3,000 distributor locations actively participating.
